Dreams in Late Antiquity: Studies in the Imagination of a Culture. Dream interpretation was a prominent feature of the intellectual and imaginative world of late antiquity, for martyrs and magicians, philosophers and theologians, polytheists and monotheists alike.

*Dreams in Late Antiquity* | Princeton University Press

Dream interpretation was a prominent feature of the intellectual and imaginative world of late antiquity, for martyrs and magicians, philosophers and theologians, polytheists and monotheists alike. Finding it difficult to account for the prevalence of dream-divination, modern scholarship has often condemned it as a cultural weakness, a mass lapse into mere superstition.

In all five essays, the themes of religion and spirituality play heavily; indeed, in the late-antique Graeco-Roman world, the essential relationship between dreams and spirituality was self-evident. This fascinating, superbly researched, and well written book really gives the "taste" of that period in history, especially because dreams are such an intimate aspect of the human being.

Rightly critical of the rigid dualism of certain modern theorists who stigmatized dreams and divination of antiquity as flights from reason, Miller imaginatively explains late antique dreams as "imaginal category[ies]" capable of representing intangibles, recording the play between primordial antagonists, like life and death, illustrating conscious and unconscious states, and as a permeable membrane between time and space.

Harris wants to argue that belief in the truth of dreams was far less common among "ordinary" Athenians (that is, those not disposed to philosophy) in the fourth century than scholars have supposed; in particular, he asserts that "no Greek politician or general is known to have invoked a dream or a prophet's dream-interpretation as a reason for action or inaction-not even Xenophon" (p. 155).
