Clearly not all
believers are primitive
and ill-educated; an

alternative
explanation is that
they must be mad, or
at least severely
neurotic (as
suggested by Freud).

This book starts by
looking at, and giving
reasons for, the

Connection and the

division between

Christian faith and

psychiatry. It asks

whether science

challenges Christians

involved with

psychiatry, as patients

whether the spiritual

scope and use of the

considers cause and

selection and

determinism. He

explores the overlap

Posited as a

The God Delusion

when it was published

it became the most

hotly debated topic,

with Dawkins himself

branded as either

saint or sinner for

presenting his hard-

rebuttal of religion of
all types. His
argument could hardly
be more topical. While
Europe is becoming
increasingly
secularized, the rise
of religious
fundamentalism,
whether in the Middle
East or Middle
America, is
dramatically and

opinion around the

serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being.

Delusion Why

The Bible is the most overrated book in the world, and Jesus of Nazareth the most overrated person in world history. These are some of the propositions which the author, who has a doctorate in theology, formulates in his examination of the Christian religion. In a

often humorous style
the book asks
whether the Bible
really is such a good,
ethically valuable
book, as the
Churches always
claim, or whether the
God of the Old
Testament is not
rather an irascible war
god while the New
Testament announces

the destruction of all unbelievers at the end times: "He that believeth and is baptized shall be saved; but he that believeth not shall be damned" (Mark 16: 16). The book also asks whether the Churches are right to invoke that Jesus of Nazareth whom they announce as the Son

of God. After all, why
academic research
has long established
that the real Jesus
was very different and
had almost nothing in

Jesus of the
Churches. Christianity

Loftus was a devout evangelical Christian, an ordained minister of the Church of Christ, and an ardent apologist for Christianity. With three degrees--in philosophy, theology, and philosophy of religion--he was adept at using rational argumentation to

defend the faith. But over the years, doubts about the credibility of key Christian tenets began to creep into his thinking. By the late 1990s he experienced a full-blown crisis of faith. In this honest appraisal of his journey from believer to atheist, the author carefully explains the

that led him to reject

religious belief. The

original edition of this

book was published in

2006 and reissued in

Loftus has received a

good deal of critical

feedback from

Christians and

skeptics alike. In this

revised and expanded

implications of life
without belief in God,

anyone with doubts

File Type PDF

The Christian

Perhaps the most persistent question in human history is whether or not there is a God. Intelligent people on both sides of the issue have argued, sometimes with deep rancor and bitterness, for generations. The issue can't be decided by another apologetics book, but

the conversation can continue and help each side understand the perspectives of the other. In this unique book, atheist John Loftus and theist Randal Rauser engage in twenty short debates that consider Christianity, the existence of God, and unbelief from a variety of angles.

Fostering mutual

perspective

Depending on how

File Type PDF

The Christian

one defines religion,

there are at least

thousands of religions

in the world. Given

such religious

diversity, how can any

one religion claim to

know the truth?

Nothing proposed so

far has helped us

settle which of these

religions, if any, are

true--until now. Author

John W. Loftus, a

File Type PDF

The Christian

former minister turned
atheist, argues we
would all be better off
if we viewed any
religion--including our
own--from the
informed skepticism
of an outsider, a
nonbeliever. For this
reason he has
devised "the outsider
test for faith." He
describes it as a
variation on the

File Type PDF

The Christian

Golden Rule: "Do unto your own faith what you do to other faiths." Essentially, this means applying the same skepticism to our own beliefs as we do to the beliefs of other faiths. Loftus notes that research from psychology, anthropology, sociology, and neuroscience goes a

File Type PDF

The Christian

Delusion Why
long way toward
explaining why the
human race has
produced so many
belief systems, why
religion is culturally
dependent, and how
religion evolved in the
first place. It's
important that people
understand these
findings to escape the
dangerous delusion
that any one religion

represents the only truth. At a time when the vast diversity of human belief systems is accessible to all, the outsider test for faith offers a rational means for fostering mutual understanding.
