~~The Hofstede model~~

~~The six-dimension model is very useful in international marketing because it defines national values not only in business context but in general. Marieke de Mooij has studied the application of Hofstede's findings in the field of global branding, advertising strategy and consumer behavior. As companies try to adapt their products and services to local habits and preferences they have to understand the specificity of their market.~~

~~Recent years have seen increasing interest in the consequences of culture for global marketing and advertising. Many recent studies point at the necessity of adapting branding and advertising strategies to the culture of the consumer. In order to understand cultural differences, several models have been developed of which the Hofstede model is the most used.~~

~~Compare countries - Hofstede Insights~~

~~The Hofstede model of national culture consists of six dimensions. The cultural dimensions represent independent preferences for one state of affairs over another that distinguish countries (rather than individuals) from each other. The country scores on the dimensions are relative, in that we are all human and simultaneously we are all unique.~~
